## INFORMATION UPDATE

### FROM THE BOARD OF MALEK FAHD ISLAMIC SCHOOL

Monday, 4 May 2020

Assalamualaikum

#### **Returning to normal arrangements at MFIS**

On Thursday evening (30 April) the Board met Mr Rixon and the Senior Executive to discuss the plans to return to normal schooling at MFIS. Following that meeting and further discussions with staff on Friday, Mr Rixon sent a newsletter to parents and staff outlining the first stages of the School's plan for returning to normal.

You will see from the information provided in the Principal's Newsletter that a careful, staged process will be followed with more students returning to School each week.

Progress will be closely monitored during those first couple of weeks and changes made as needs arise. If all continues to go well, we should see all students able to return to normal face-to-face classes early in June.

In the meantime, of course, learning continues at MFIS with students working at home using the 'remote learning model'. The School remains open for students whose parents for any reason need them to attend school.

To enable large numbers of students to return to School, we need to create an environment where everybody is as safe as possible – students, staff, parents and other family members. Hence, an important part of the return plan will be the development of a range of rules and requirements that must be followed. These will be based on medical advice developed especially for schools.

Once these rules and requirements are finalised and distributed it is essential that everyone follows them to play their part in ensuring we have an environment that is as safe as possible.

The Board implores all parents, students and staff to be aware of the rules and requirements that relate to them and follow them. This will ensure our community remains safe and education returns to normal at MFIS as soon as possible.

Jazakallah Khairan for your ongoing support.

Wassalam
