

TECHNOLOGY – MANDATORY

The aim of Technology (Mandatory) in Years 7 & 8 is to develop students' ability to design, produce and evaluate quality solutions that respond to identified opportunities and needs. It enables students to justify solutions and to responsibly, safely and creatively use and select materials, tools and techniques.

Students will develop knowledge of design processes, design theory and the work of designers. They gain skills in researching, experimenting, generating and communicating creative design ideas and solutions. Students develop an understanding of the impact of innovation and emerging technologies on the individual, society and the environment. The focus areas covered in Year 7 include Timber technology, Food technology, Graphics and Textiles.
